Manager's Notes

If you are a new subscriber, or if this is your first program guide, welcome.

KALW was the first FM station in the West and the first non-commercial station as well. 1995 marks our 57th year of service. We're proud of that heritage.

Your support during subscription drives, your phone calls, letters, critiques and kudos helped make 1994 KALW's most productive year. We hope you agree.

By the way, KALW is now a recognized United Way Agency. You can support the station through the payroll deduction plan where you work or by designating KALW when you pledge to United Way. If you do sign up, send us a copy of the authorization and we'll extend your subscription and send a list of thank you gifts.

In the last issue, I asked what you thought of some ideas for our Saturday and Sunday programming. The response was as varied as the number of responders but there was some consensus.

Based on your response, audience ratings, subscription drive results, subscriber survey sheets and projections of listening patterns, here's what we're going to do:

- "What's Ya Know?" moves to Saturday, following "West Coast Live," from Noon till 2:00 pm.

- The new regular time for "To The Best Of Our Knowledge" will be Sundays at 1:00 pm following Le Show. The program will repeat at 9:00 pm on Tuesdays for the time being.

- "All Things Considered" will fill the Sunday 4:00 pm slot.
- Dr. Marty Nemko's "School and Career Talk" moves to Tuesdays at 7:30 pm followed by "Book Talk" at 8:30 pm. Tuesday evening programming is sometimes preempted for live broadcasts of the San Francisco Unified School Board meetings.

- "Quirks and Quarks" and "Tech Nation" can still be heard at 10:00 am on Monday and Tuesday mornings respectively.

We hope you find the new weekend line-up more cohesive, informative and entertaining. Please don't hesitate to let us know what you think.

A few other changes round out the schedule:

- David Horowitz has taken "Second Thoughts" out of production. "Think Tank," Ben Wattenberg's lively look at the right side of the aisle, now presides over 1:30 pm on Thursdays.

- As "Wade In The Water" ends its second cycle, jazz returns to Saturday nights at 11:00 pm with "World Wide Jazz," recorded live at Nick Vollebregt's Jazz Cafe in Laren, Holland. Play this one on the BIG speakers.

NOTE: For a more graphic representation of what's moved and what's new, please refer to the weekly grid in the center of this guide.

The first anniversary of "West Coast Live" is January 7. Over 10,000 KALW listeners attended the live broadcasts at Fort Mason Center's Cowell Theater this year. With the addition of WHYI in Philadelphia, "San Francisco's Live Radio Show To The World" is now carried on over 30 stations.

I hope to see you in person at the Cowell Theater this year. It's a great San Francisco experience for the whole family. Don't drop that Aquaphone!

I'm sure you've noticed our participation in community arts, service, educational and cultural events and festivals, with live broadcasts and special programs. Expect more of these Community Partnerships in the coming year, it's our job.

I'll close on a serious note. The new Speaker of the House, Newt Gingrich has said: "One of the things we're going to do this year. I hope is to zero-out the Corporation For Public Broadcasting, which has been eating taxpayers' money."

On a total annual budget of less than 300 million per year, CPB Grants help support all of: public radio, public television, the Public Broadcasting System (PBS Television Network), Learning Link, Instructional TV (ITV) programs, classroom education projects,

training programs, news, documentary, cultural and instructional programs through the program fund, broadcast system expansion, information and community computer on-line access development, and hundreds of other projects which enrich and inform each of us every day. Over 90% of all Americans are within the coverage of CPB aided projects, every single day. CPB is isolated, by law, from direct governmental influence. **You are CPB!**

For a little over \$1.00 per person per year, Americans enjoy the most prolific, creative and least censored public broadcasting system in the world.

Can you guess what part of that sentence bothers Speaker Gingrich?

Now is the time to act. A simple postcard or letter with the words: "SAVE C.P.B." will do the job. Send it to:

The Honorable Senator Barbara Boxer
The Honorable Senator Dianne Feinstein
The United States Senate
Washington, DC 20510

and to your member of the House of Representatives at:
The Honorable _____
United States House of Representatives
Washington, DC 20515

Write now, right now, this is the real thing. Be sure to include your return address. Every single letter counts. We need to show strength immediately. In numbers, there is strength.

If you'd like me, or a member of the staff, to speak to your social, civic or business group, just let me know and we'll be glad to help. We like to talk about public radio, the media in general, censorship, KALW itself or the political environment surrounding the attacks on CPB.

On behalf of all of us, I'd like to wish you a happy and healthy 1995.

Jerry Jacob
General Manager

Manager's Notes

W

I thought of calling the photograph on the cover "The Future of Public Broadcasting." Dignity, decorum and a steadfast faith in the quality of our programming, and your support, gave us cause to reconsider.

In reality, the cover should be titled "The Future of KALW" The building you see under "deconstruction" is the John O'Connell High School, our former, earthquake damaged, home. On the O'Connell site, the San Francisco Unified School District will build a modern elementary school to serve this vibrant and deserving Inner Mission neighborhood.

Since KALW's facilities have been housed in the O'Connell Gymnasium for the last four years, we're now faced with finding, funding and building a new and permanent home for your radio station.

In the almost three years since we became financially independent of our licensee, the SFUSD, we've managed to provide this service with the fewest days of on-air fundraising of any public station in Northern California. Our spring subscription campaign is about to begin. If you can afford to increase your tax deductible subscription, the need is great.

I'm writing this on the morning of my return from meetings with key people in the Northern California Congressional delegation in Washington, as well as with our friends at both National Public Radio [NPR] and the Corporation For Public Broadcasting [CPB].

The House passed the Reconciliation Bill this morning, March 16, 1995. It is unlikely that Senate action will reverse those provisions of the Bill which affect public broadcasting. It is inevitable that we will face severe cuts in our CPB support next year, and much deeper if not total cuts in the two following years. CPB, and public broadcasting's future beyond 1997, are very much in jeopardy.

My purpose in Washington was to elicit support for alternative funding sources. In concurrence with NPR, one specific proposal was well received. In addition to proposing new legislation, I was able to expose some of the potential booby traps and land mines which might be written into any modification of existing legislation regarding funding criteria, program and signal overlap, spectrum allocation, underwriting rules or privatization of public broadcasting. For KALW, the prudent course of action is to plan for the worst case scenario.

I wish there was some definitive action I could suggest, but at this point, all I can say is please keep in contact with your Representative and Senators. Keep urging them to support public broadcasting and stations like KALW in particular.

You are public broadcasting's greatest resource. Your subscriptions and willingness to take an active role in expressing your ideas and feelings give encouragement to the elected officials who support us.

In short, now more than ever, in every way, we need all the help we can get.

Here's what's happening in programming. You've probably noticed our new Sacramento-based California news program at 7:00 pm week nights. "The California Capitol Report" brings you producer Mike Montgomery's access to our state officials and his incisive analysis of the events that shape the state of the state. Let us know what you think.

There are a couple of program changes this quarter. The first is the usual summer hiatus of The Chautauqua Lecture series. Once again you'll be hearing the excellent Cleveland City Club Forum series on Tuesdays at Noon.

Starting on March 29, Dore Stein will join Michael Johnson as they create a new direction for our Wednesday night musical journeys. You may remember Dore's very popular "Tangents" on KCSM. You also know him as the music director of KKSJ. We welcome him to the KALW team.

That's about it for this quarter, "stay tuned for more..."
